Focus on Clinical Research

Dr. Vatanagul has a zest for clinical research. He has been involved in several International and Local Randomized Control Clinical Studies that focus on Epilepsy, Stroke and Neuropathic Pain either as a Principal Trial Investigator or Sub-investigator

He has also authored and co-authored more than 30 Papers (Case reports, meta-analysis and prospective studies) that have been presented Internationally as Posters and Oral Platform Presentations in countries such as New Zealand, Japan, Chile, Korea, Hong Kong, Dubai, United States and Austria and published in reputable medical journals and online research platforms.

Founder of Cracking D' Boards Study & Review Center, Inc.

Dr. Vatanagul is the founder, President-CEO of the only medical review center in the country with branches in both Metro Manila and Cebu

CDB Review center is SEC registered and CHED certified

CDB Review center was awarded the following National Awards
32nd Global Excellence Awards for Achievers
2019 Best Medical Review Center
29th Global Excellence Awards for Achievers 2016 Best Medical Review Center
36th Consumer's Choice Awards 2016 Best Medical Review Center
2016 National Customer's Choice Best and Best Trusted Medical Review Center

CDB has produced Forty (40) TOPNOTCHERS in the last 12 board exams with FIVE students bagging the TOP 1 Slot (November 2020 PLE, March 2018 PLE, March 2017 PLE, March 2016 PLE, February 2015 PLE)

CDB is the medical review center with the highest and most consistent passing rates in the country.

Founder of CDBcares Program

Dr. Vatanagul's has an innate compassion to serve the community through spearheading medical missions, community outreach programs, offering educational scholarships for medical students and indigent students as well as providing financial assistance for patients and complete strangers

Since 2010, Dr. Toom has provided 138 scholarships for aspiring MDs

Since 2008, Dr. Toom has provided academic scholarships to Indigent and/or working students and children with medical disabilities (e.g., Deaf Mute, Hematologic Cancers). Several of his scholars have attained a high school degree, college degree and vocational degrees (e.g., HRM, Computer Science)

Since 2016, the CDB cares program has provided financial and medical assistance for patients (e.g., Ventriculoperitoneal Shunting, Bone Marrow Aspiration, Cataract Surgery, Chemotherapy, Liver Transplantation)

The CDBcares program has conducted civic and socio-medical activities within the province of Cebu.
